

ON-SITE BASIC FIRE EXTINGUISHER COURSE

This course is intended to give factory, office or site staff etc, a basic understanding of the use and limitations of portable fire-fighting equipment, and includes practical training on live fires.

Duration: Half day

Number of delegates: Up to 20

SYLLABUS

Theory of combustion and fire triangle

Fire classification

Classes A, B, C, D, E & F fires

First aid fire fighting equipment

Types, use and limitations

Practical Fire Extinguisher Use

Use of portable extinguishers on class A, B & C fires
Fires involving electrical equipment
Use of fire blankets

Requirements:

1. A room with a mains power socket and sufficient seating for trainees. It will also be useful if the room can be darkened.
2. An outside area suitable for using fire extinguishers on several small fires without causing annoyance to neighbours.

This course will fulfil the fire extinguisher training requirement for staff under current fire legislation for a period of 1 year.

Certificates of attendance will be issued.
