

DISABLED EVACUATION - Chairs v Slip mats

EVACUATION CHAIRS

Advantages

- Can often be used by one operative

Disadvantages

- Expensive;
- Some models are difficult to use;
- Ongoing maintenance expenses; and
- High training commitment.

SLIP MATS (SKI PADS)

Can be used in a wide range of premises such as schools, colleges, universities, offices, shops, hotels, nursing homes etc

Disadvantages

- Usually require 2 operatives;
- Difficult when corridors/doorways/stairs are very narrow.

Advantages:

- Cheaper than evacuation chairs;
- Double thickness version suitable for people with brittle bones;
- Easy to use;
- Low training costs;
- No maintenance costs;
- Easy to transfer wheelchair users onto;
- Comfortable for passenger;
- Designed for use on stairs;
